

Sponsorship Opportunities

MISSION: To end homelessness through research, education, and advocacy.

At the New Hampshire Coalition to End Homelessness (NHCEH), we increase understanding and awareness of homelessness in New Hampshire through essential activities. We lead statewide efforts to educate the community, provide training opportunities, research solutions, and raise the voices of those who have experienced homelessness. Continuing to provide these activities requires a diverse funding stream that includes support from our community partners and donors through sponsorships for our programming and events.*

**Sponsorships support unrestricted funds for universal programming and initiatives.*

NH Coalition to End Homelessness

Program Descriptions

RESEARCH

NH Homeless Research

We are an important source of information on statewide homelessness for service providers, academics, policymakers and citizens. The Coalition facilitates and disseminates research on key issues, advancing the development of cutting edge solutions.

State of Homelessness in New Hampshire

We release an annual report that provides economic and demographic information on homelessness at state and regional levels. Changes and trends in this data are highly relevant to policy discussion and identifying evidence based solutions.

EDUCATION

Trainings

We provide professional development to a variety of community providers including social work, behavioral health care, affordable housing and clinical practice. Training topics provide evidence based practices for working with individuals and families who are experiencing homelessness.

Scholarships

We provide the Hope Starts Here Scholarship, which helps high school students who have experienced homelessness to continue on to higher education.

ADVOCACY

Granite Leaders

Granite Leaders is a unique leadership training program created specifically for people who have experienced homelessness. This free program provides leadership training on homeless advocacy and community engagement as well as introducing participants to widely recognized leaders on local, state, and national levels. Upon completion of the program, graduates become part of a network of skilled leaders focused on improving the quality of life in communities across New Hampshire.

Policy

We provide data and experience to inform state and federal policymakers on the condition of homelessness in New Hampshire and how they can enhance and develop effective policies that support efforts to end homelessness.
